📞 (971)-225-2711

📍 Portland, OR

Profile

My background is in web development with a specialization in full-stack development. My passion is centered in making great apps for end-users. I want to discover more about the amazing world of test driven development. My goal is to grow as a person and as a professional, every day.

Education

Associates Degree in Computer Science

2015 - 2016

ITT Technical institute | Portland, OR

Work experience

Lead Software Architect/Developer of AlphaPrep

08/2015 - Present

Alpha Exam Preparation, LLC | Beaverton, OR

I Developed and designed the vast majority of the AlphaPrep project which, when I started the project was operating at a loss, is now profitable and self-sustainable. I Created a central identity provider and removed the need for auth to be implemented per-application. I developed using C# (.NET Core, .NET Framework), frontend development using Nuxt.JS for both client SPAs and SSR web apps. Utilized EF Core and EF migrations with Azure SQL Databases to manage persisted data Improved testability, modularity, and flexibility of existing code through implementing Clean Architecture.

Skills

Programming Languages

C#	<div><div></div></div>
HTML/CSS	<div><div></div></div>
Javascript / TypeScript	<div><div></div></div>
SQL	<div><div></div></div>
